Febeau Govt Primary Receives \$100,000 in Steelpan Equipment

Students of Febeau Government Primary enjoy their school's new steelpan equipment donated by the Scotiabank Foundation. The support of steelpan education for young students is a natural extension of Foundation's commitment to not only the rich culture of Trinidad and Tobago and the promotion of the national instrument, but also helping our young people to have better futures and lives.

“Helping our young people to have better futures and lives.”
